Solution - eGuardian

eGuardian

*Safety & Health Monitoring
Solution*

Product Modules:

- Personnel Movement Management and Monitoring
- Real-time Personnel Location Tracking
- Health and Activity Monitoring and Management
- Supervisory Task Scheduling and Incident Reporting

Fixed bullets, speed domes,
& pan tilt zoom cameras

Real-time identification of
personnel with video analytics

Centralised video management
& monitoring platforms

Remote access and viewing
of footage via mobile devices

eGuardian-Personnel Tracking & Monitoring

eGuardian safety and health monitoring solution is designed to support healthcare and construction companies in establishing a safe and effective working environment by mitigating risks.

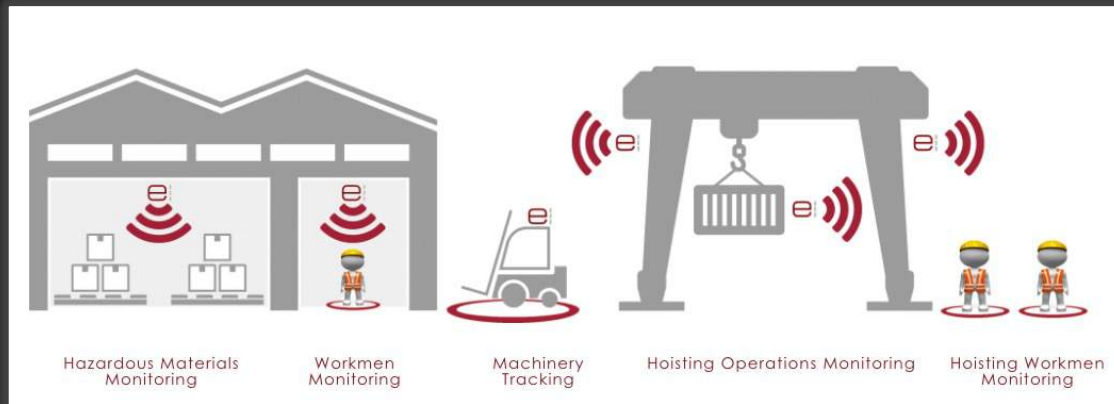

Without the need to be physically present, you will have a complete overview of every monitored location to efficiently respond to unprecedented scenarios or accidents.

eGuardian's flexible Cloud platform provides real-time information on location and status of workmen, working environment conditions and health statistics of healthcare recipients ; accessible anytime and anywhere, using a web-enabled browser or mobile smart device.

eGuardian-Trace

eGuardian•TRACE is a powerful and effective track and trace solution that allows real time positional monitoring of personnel in high-risk work environment. It has the ability to provide rapid warning and evacuation in unprecedented situations, thus protecting your workforce.

DEPLOYMENT CAPABILITY

Controlled Area

Near-live-runway workplace where workmen are exposed to the risk of accidental incursion into the taxiway.

Confined Space

Deep tunnel workplace where workmen are at risk of tunnel flood, exposure to poisonous gas or a potential cave-in.

Manufacturing Facilities

Where lone workmen are tasked to handle hazardous materials with possible gaseous leak. Trace trackers assigned to workmen are capable of reading vital human signs such as pulse rate and body temperature.

Advanced Virtual Geofencing

Workman Health Monitoring

Real-time Location Tracking

Emergency Headcount

Historical Graphic Replay & Statistics

User Account Management

Key Features

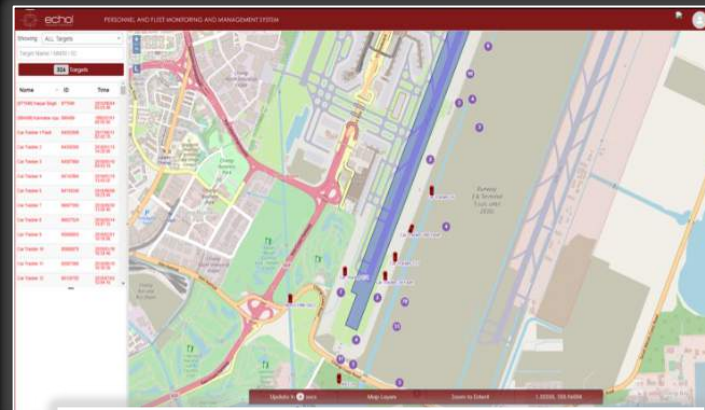

eGuardian•TRACE enables **in-building and outdoor** environment tracking. It has the ability to provide rapid warning and evacuation in unprecedented situations, thus protecting your workforce.

Control Personnel, Vehicle, and Visitor Entry on Work Site by Drawing Virtual Geofencing by Web Browser Platform, Smartphone App Platform and SMS Query along with Custom Map Integrated with In-building Facility Tracking and Personnel Transponder Unit Compatible for In-building and Outdoor Tracking.

GPS precise positioning with AGPS and uploaded through 3G regularly.

Receive alert warnings when rules are violated.

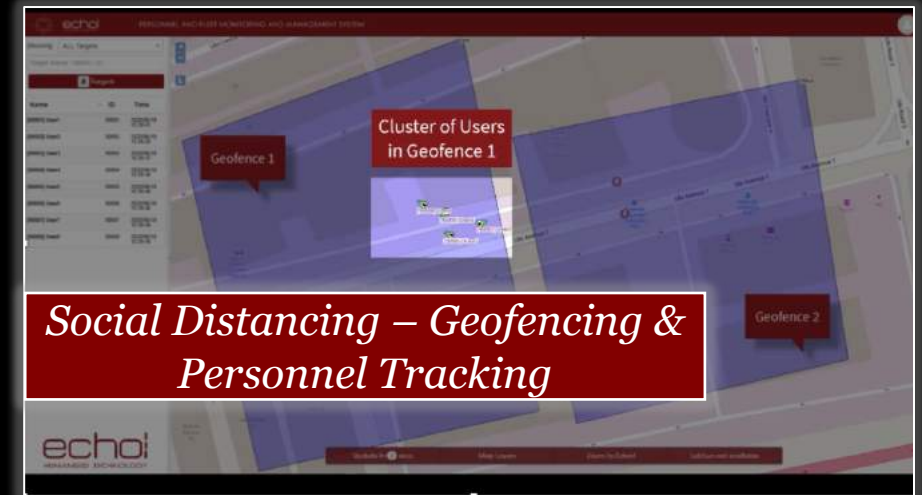

User configurable map overlay and map groups for multiple zoom level map view

Custom map is linked to the building layout by clicking onto the facility

Application

Social Distancing – Geofencing & Personnel Tracking

Resource Tracking - Airbase Maintenance, Changi Airport Group
